

**SWR 20/30**  
Low lifter

### Powerful low lifter

When transporting over long distances Abekos sit-in version in their series of lowlifters and excellent choice. Generously dimensioned workplace offers as much flexibility as possible for all drivers. SWR are available in both 2000 kg and 3000 kg capacity and extra long forks to handle several pallets at the same time is a common option.

**Controls** With the adjustable controls you will quickly find a good and relaxed driving position. Seat, steering wheel and the vibration-isolated armrest are all adjustable.

**Floor adjustment** To allow everyone to find an optimum driving position, the floor is both raise/lower and tilt adjustable. The low step-in height also makes getting in and out extra smooth.

**Workplace** | SWR space is generous to provide the best comfort possible. The truck can be equipped with different types of speed controls.
